

Do you know what this app is?

WE ARE SURE YOUR TEENAGER DOES!

Facebook

Many teens have Facebook but it is usually not their most favorite social media site. They see Facebook as a site for "older" people. They do still check it though!

Messenger

Facebook tries to keep teens engaged by offering Messenger. Messenger requires a Facebook log in and teens can message individuals or groups.

Great social media tool to communicate and share with family & friends

Be cautious. Check your child's privacy settings for this site/app. Privacy settings change frequently

For more information visit our Social Media Maze website at
