

ARE THESE APPS ON YOUR TEEN'S DEVICES?

"Hiding" apps or "ghost" apps (also called vault apps) are apps that look harmless but are designed to hide photos and other information. These apps are everywhere and our teens know about them!

Parents can..

check out new apps, look for redundancy, use parental controls, and have honest conversations with your teens!

Private Photo
Calculating %

This is an app designed to hide photos. Looks just like a calculator. User enters a code and then can access storage of secret photos

Gallery Lock
Android Users.

Offers a "watchdog" feature that snaps a photo of user after 3 failed password attempts

Best Secret Folder
hides apps so others don't realize the app is on phone

"70% OF TEENS HAVE HIDDEN ONLINE ACTIVITY"
