

SNAPCHAT

TEENS LOVE USING SNAPCHAT! IT IS A PHOTO-SHARING & MESSAGING APP THAT ALLOWS USERS TO SEND PHOTOS, TEXT & VIDEO TO SPECIFIC PEOPLE/GROUPS. PHOTO "DISAPPEARS" AFTER AN ALLOTTED TIME.

Snapchat got a "bad name" in the beginning because of the availability for some teens to use it inappropriately. If used appropriately, snapchat is a quick easy way for teens to share information with their peers through snaps and stories.

This app also makes kids feel like they can "sext" or send inappropriate pictures without consequences because the image will self-destruct automatically. The truth is that nothing sent over the internet disappears. There are always ways to retrieve and capture those images.
