

HAVE YOU SEEN  
THIS APP ON YOUR  
TEEN'S DEVICE?

---

**WHISPER**

---

WHISPER ALLOWS TEENS TO POST  
SECRETS ANONYMOUSLY AND ALLOWS  
THEM TO CHAT WITH OTHERS IN  
THEIR GEOGRAPHIC AREA

*Many teens are attracted to communicating with strangers. They feel their secrets are safer with them than friends. This app is scary because it allows strangers to exchange messages and because it is based on geographic area, anonymity can be easily lost.*
